CHAMELEON CONCEPTS, TRANSFORMING THE FACE OF BATHROOM VANITIES!

At Chameleon Concepts we believe in celebrating individuality and unique style.

Created out of frustration with the “same old thing”, Chameleon Concepts set out to revolutionize the bathroom vanity.

Chameleon Concepts vanities are manufactured locally in the U.S., using the highest quality materials. Available in 24”, 30” and 36” box sizes, our vanities can be joined horizontally and stacked vertically to create your custom size. Designed with a large functional drawer, with space for all your bathroom necessities, our vanities are practical as well as beautiful. The Panther Collection vanities must be wall mounted and may be accessorized with decorative legs.

The Chameleon Concepts’ Panther Collection offers a variety of colors for the side panels and the front frame of the vanity. The drawer front of the vanity is comprised of a frame that can house a range of inserts. This allows each vanity to be customized with unlimited options; mosaic, laminated wallpaper, faux leather, marble slab and mirror are just a few. Create your unique vanity by selecting your preferred size, color and insert.

Chameleon Concepts is protected under US Patents D735,499 & D742,661.
