## CHAMELEON CONCEPTS, TRANSFORMING THE FACE OF BATHROOM VANITIES!

At Chameleon Concepts we believe in celebrating individuality and unique style.

Created out of frustration with the “same old thing,” Chameleon Concepts set out to revolutionize the bathroom vanity.

Chameleon Concepts vanities are manufactured locally in the U.S., using the highest quality materials. Available in 24”, 30” and 36” box sizes, our vanities can be combined to create your custom size. Designed with an adjustable shelf to store all your bathroom necessities, our freestanding vanities are practical as well as beautiful.

The Chameleon Concepts Parsons Collection is stocked in 6 colors. The front of the vanity is comprised of a frame that can house a wide range of inserts. This allows each vanity to be customized with unlimited options; mosaic, laminated wallpaper, faux leather, marble slab and mirror are just a few. Create your unique vanity by selecting your preferred size, color and insert.

Chameleon Concepts is protected under US Patents D735,499 & D742,661.

01 | configurations
